DETAILED ACTION

The amendment filed 2006 January 9 proposes amendments to claim 1 that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required. See also MPEP 1453 for explanation and examples. Amendments of claim are made only relative to the patented claims; prior amendments are not incorporated. Thus, all material which is new relative to the patented claim language is underlined even if presented in a prior amendment, and bracketed material is bracketed only if in the patented claim.

Although it is not required, neither is it prohibited, to submit a complete listing of claims. Such would be helpful. In so doing, it is not necessary to employ identifiers such a “(new)” or “(original)” since an underlined claim is understood to be new and a claim without an ‘(amended)’ identifier is understood to be un-amended (i.e., same as the patent).

A shortened statutory period for reply to this letter is set to expire ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this letter.
